Career Objective

Motivated engineering student seeking opportunities to apply technical knowledge, improve skills, and contribute to real-world projects.

Education

Bachelor of Engineering in Data Science(Pursuing)

Ballari Institute of Technology and Management
CGPA : **8.83**

Pre University

Sri Chaitanya PU College
Percentage : **85%**

High School

Ashirvad High School
Percentage : **86%**

Technical Skills

- Programming Languages: **C,C++, Python, Java**
- Tools: **VS Code, Git, Overleaf, Claud, Vercel**
- Areas of Interest: **Software Development, AI/ML, Database management**

Projects

Smart Electrical Monitoring System

- Developed a smart system to monitor electrical parameters and energy usage.
- Used sensors to collect electrical data and provide real-time monitoring.
- Designed the system to improve energy awareness, monitoring, and efficient electricity usage.
- Technologies/Components: Arduino, C++, Electrical Sensors, IoT.

Automatic Plant Watering System

- Developed an automated plant-watering system using a soil-moisture sensor and water-level sensor.
- Monitored soil moisture and automatically controlled water supply based on the plant's needs.
- Helped reduce unnecessary water usage and enabled efficient plant care.
- Technologies/Components: Arduino, Soil Moisture Sensor, Water Sensor, Water Pump.

Strengths

Problem-solving, teamwork, communication, leadership quality, and adaptability.
